Christopher W. Symons

Auburn, GA

cwsymons@cwsymons.com | (770) 843-0496

Dear Hiring Committee,

I am writing to express my enthusiastic interest in a senior executive leadership position within your organization. With over four decades of proven success in strategy, information systems, and organizational change, I bring a deeply rooted commitment to servant leadership, spiritual discernment, and legacy-building through operational excellence.

As Inaugural CEO of NuMaxim, a Christ-centered consultancy, I established a governance and operational framework inspired by Matthew 22—fostering an Economy of Love. My ability to lead mission-driven transformation, create high-functioning boards, and design culturally aligned strategies has led to 95%+ OKR success and sustained impact across both corporate and ministry settings. Bottom Line... I lead businesses to flourish through the discovery and distribution of God's Love.

What sets me apart is my dual fluency in both information systems and spiritual discernment. I have led high-stakes federal contracts, coached startups, and revitalized teams through biblically informed leadership and metrics-based strategies. I believe your organization's vision for transformation would benefit from my commitment to aligning business outcomes with eternal values.

I welcome the opportunity to discuss how my experience and calling align with your mission. Thank you for considering my application.

With faith and purpose,

Christopher W. Symons

Strategy, Quality, Efficiency, Innovation, and Change
